

Flexible LED B25

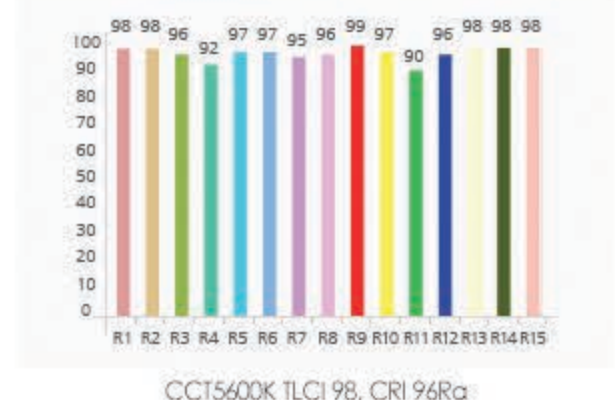

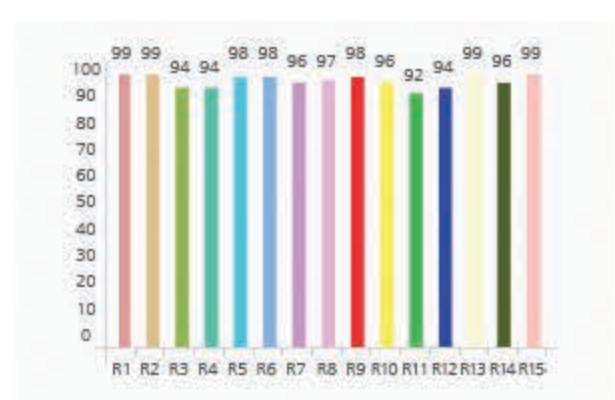

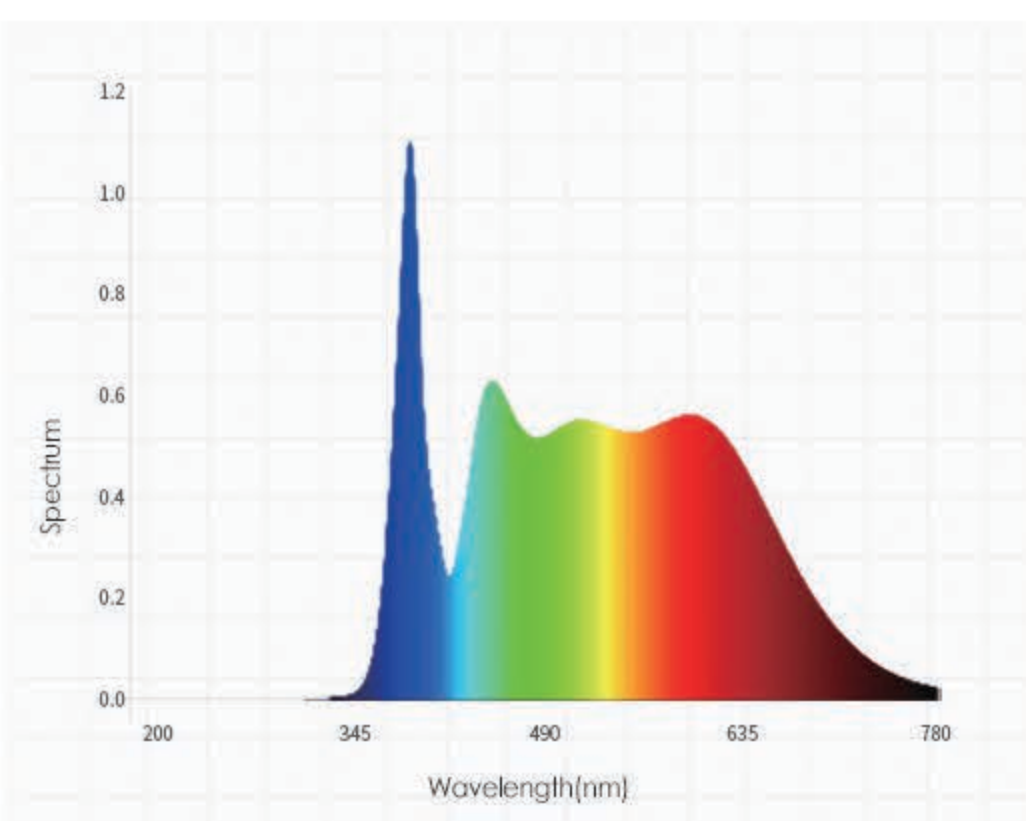

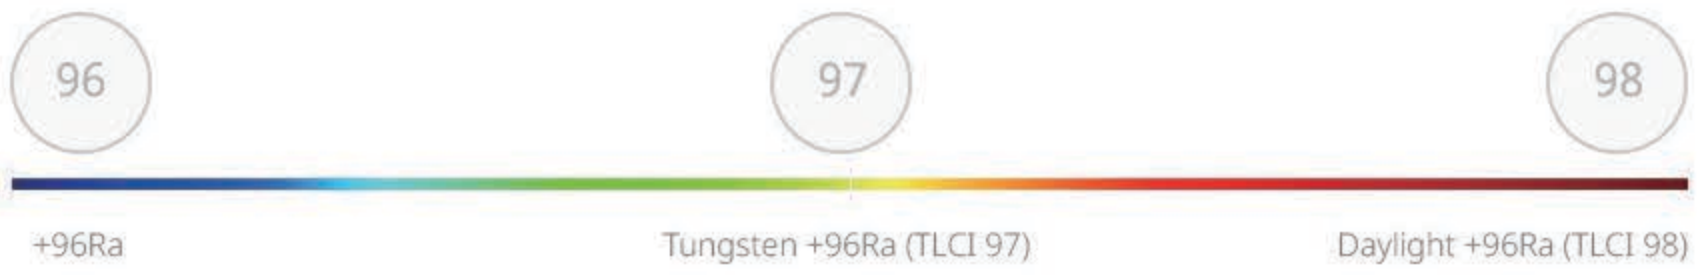

Revolution of Lighting System, Flexible LED

Flexible LED series lighting is a revolution in lighting systems that has completely surpassed the limits of traditional light panels. The Flexible LED Series is made of flexible LED mats with a flexible material, so that it is not constrained by any location or environment, and can be modified freely in any position using the integrated hook and loop and X-Mount.

TLCI 98 & CRI 96

TLCI 98 & CRI 96 ensure color reproduction is true-to-life, making post production more straighter forward and less time consuming.

Evolution for the Professionals, Flexible B

Flexible Series is a CE-certified product that allows you to select tungsten and daylight with simple operation and is small and light for easy storage and on location.

It features waterproof, flicker elimination, multi-voltage CE certification. Flexible B maximizes color representation by ensuring TLCI 98 and CRI 96 and effectively implement your keen intentions between the subject and the viewer.

Specifications

FL-B25	
Light Output	750lux @1m; 3200K / 800lux @1m; 5600K
Power Consumption	25W
CRI / TLCI	CRI 96-98 / TLCI 98
Color Temperature	3200K / 5600K
Dimmer	0-100% DIM / Manual
Output Connector (Waterproof)	4Pin
Mat IP Rating	IP64
Input	15V DC (2Pin)
Beam Angle	120°
LEDs	240
Dimensions (mm)	245 × 136.5
Weight (g)	346
